Long-distance caring

The Melkbos Care Centre recently received a helping hand from international charity, Hand in Hand-Afrika.

Hand in Hand-Afrika is a charitable organisation with members from Switzerland and all of Europe. Regular visits to Cape Town make it easy for the organisation to make sure that funds raised abroad are filtered to those who need it most in Cape Town.

Melkbos Care Centre is a lifeline for underprivileged children who attend the centre daily after school. They receive nutritious meals, assistance with homework, projects and research as well as clean clothes and

school uniforms. Their aim is to create a vital support system during the child's development to prevent the children from leaving school early and repeating the poverty cycle.

The centre was in need of a vacuum cleaner, a washing machine and a tumble dryer for the daily washing of 35 children's clothes and school uniforms. Hand in Hand-Afrika were able to assist and offered to donate a brand new washing machine, tumble dryer and vacuum cleaner.

For more information about Hand in Hand-Afrika and Melkbos Care Centre go to www.handinhand-afrika.ch and www.ubunye.org.
